This project will require some coordination with NCA’s outsourced marketing department for print files, as well as with the USPS for list and mailing instructions. The purpose of this RFP is to provide a fair evaluation for all candidates and to provide the candidates with the evaluation criteria against which they will be judged.

Proposal Guidelines and Requirements
This is an open and competitive process. Please read this RFP in its entirety.

Preference will be given to member companies, but proposals from non-member entities will be accepted. Non-member companies must become a member in order to be given consideration in the final round of the process. In addition to membership, a listing on MyMailConnection.com is required.

Proposals received after September 26, 2014 at noon (12:00pm) EST will not be considered.

The price you quote should be inclusive. If your price excludes certain fees or charges, you must provide a detailed list of excluded fees with a complete explanation of the nature of those fees.

If the execution of work to be performed by your company requires the hiring of sub-contractors you must clearly state this in your proposal. Sub-contractors must be identified and the work they will perform must be defined. In your proposal please provide the identifying information of the sub-contractor(s). NCA will not refuse a proposal based upon the use of sub-contractors; however we retain the right to refuse the sub-contractors you have selected.

Provisions of this RFP and the contents of the successful responses are considered available for inclusion in final contractual obligations.

Contract Terms
NCA will negotiate contract terms upon selection. All contracts are subject to review by NCA’s legal counsel, and a project will be awarded upon signing of an agreement or contract, which outlines terms, scope, budget and other necessary items.

Background of Organizations
The New Consolidated Association (NCA) is a nonprofit trade association that acts as a resource for member companies who desire to transform their businesses from traditional, segmented production and distribution service providers to full-service marketing providers for a broader marketplace. These resources include concept and content creation, strategic and business management consulting, digital-based production services, and dynamic response analysis of campaign results. The New Consolidated Association works to enhance and improve the service providers’ business climate by providing them with relevant education and knowledge, and by assisting them in improving their sales and profits. The New Consolidated Association is made up of the National Association for Printing Leadership (NAPL), which was founded 1933 and is incorporated as a nonprofit in the state of New Jersey, The Association of Marketing Services (AMSP), which was founded in 1921 and is incorporated as a nonprofit in Washington, D.C, and the National Association of Quick Printers (NAQP), which was formed in 1975.

Services
The NCA provides a variety of services to member businesses, including the scheduling and coordination of a number of activities and events. These include educational workshops, timed conferences and seminars, and an annual awards banquet.

The NCA also provides consulting services that help their members grow their businesses. These services are unmatched in the industry; others provide educational resources only. In addition, we provide direct services to members, including professional lobbyist services to represent our members with government agencies.

The NCA maintains a strong and respected voice on Capitol Hill and Postal Headquarters to protect the interests of the membership.

The NCA provides communications in the form of a members-only community portal, a monthly magazine, special bulletins, and regular monthly meetings. We also provide group benefits, such as coordinating our members’ negotiations with suppliers, energy and insurance companies for rates and discounts. The members-only community creates a private, secure place for our members and constituents to connect, share ideas, and get answers quickly.
