## Applications That Support Business Growth

Improving productivity, reducing costs, and increasing the value of shared information and communications.

**Our Project Management solutions are keenly focused on helping organizations – large and small**

### Mailings

Novex employs sophisticated custom mail sorting software for targeted mailings and first-class distribution, that will maximize postal savings and rapid delivery.

### Data/Mail List Management

We offer the level of technical support required to help you manage and manipulate your data, including the most qualified personnel systems and software.

### Fulfillment/Kitting/Distribution

Our experience allows us to handle multi-piece kitting, monitor the process and propose value-added actions. Using the software customized to your application, our professionals will handle ordering, warehousing, fulfillment plus, reporting, tracking and promotions.
