

Idealliance + Epicomm

Together. Shaping the Future as  Idealliance.

From corner copy shops to mailers and multinational printing companies, publishers and agencies to packagers and mega-facility fulfillment operations, Idealliance members across the entire media supply chain use Idealliance resources to help them grow profitability and meet business and technical challenges from everyday production issues to long-term strategic planning.

We are ...

Best Practices & Working Groups

GROUND BREAKING ...

Creating a more profitable future with speed and efficiency

Idealliance technical and business management best practices set the standards for the industry and are continually advanced through the ground-breaking activities of its collaborative member-driven Working Groups. Open to member's only, Idealliance Working Groups allow members to strategize, innovate, standardize, and implement best practice solutions to real business and workflow challenges.

Certification & Training

SETTING THE BAR ...

Opening new markets and heightening competitiveness

Idealliance certifies the highest levels of performance in the creation, production, and delivery of graphic communications across the total supply chain, from content creator and brand manager to print, marketing, mail, and fulfillment services providers. Idealliance G7® and Color Management Professional® certifications are recognized as industry standards worldwide, streamlining processes and removing costs from the supply chain.

Advocacy & Advancement

UNIFIED VOICE ...

Advocating for innovation, and government and postal reform

Idealliance serves as a strong, united voice for the graphic communications industry, advocating before legislative and global regulatory bodies on behalf of its members and industry, successfully blocking harmful legislation, and spurring adoption of effective standards in postal regulations, color and print processes, and a broad spectrum of business issues from environmental concerns to workplace practices.

LEVERAGING KNOWLEDGE ...

Advancing business practices to member's best advantage

The association offers specialized business management tools and services to help companies grow and improve profitability, including its eKG™ Competitive Edge Customer Profile, Leading Indicators™ real-time financial benchmarking tool, State of the Industry Annual Report, and Business Advisory Group consulting services.

Education & Events

DEVELOPING LEADERS ...

Informing on the latest technical and management trends

Idealliance is a robust source of timely, dependable industry management and technical intelligence, provided through its periodicals, reports, webinars, online training and education, fostering effective peer interaction. Events such as its Annual Conference, PRIMEX Roundtables, and Regional Events bring experts and frontline industry peers to locations around the country for educational sessions and networking.

Publications & Research

COMPETITIVE EDGE ...

Economic benchmarks keep you profiting from change

Idealliance is a robust source of timely, dependable industry management and technical intelligence, provided through its periodicals, economic benchmarking reports, Postal Points and other newsletters offering actionable strategies and tactics for enterprises both large and small to better manage competition and react to a changing industry. Bottom Line Magazine is Idealliance's premier print publication for senior managers seeking the latest industry trends and best practices.

“

The combined associations of Idealliance and Epicomm address every industry concern—from design to print to digital—with a comprehensive, holistic approach.

Marriott Winchester, Idealliance
Past-Chair and President, sgsc
Americas
